EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Daley on 1/24/06.

The application has been amended as follows:

In the claims:

Canceled claims 1-5

Claim 6, line 3, inserted --single-- before "cable tie"
line 8, inserted --single-- before "cable tie"

2. The following is an examiner's statement of reasons for allowance: the added limitations of providing a single cable tie and assembling the single cable tie with the cable encircling member such that the cable tie strap overlies the outer surface of the cable encircling member along with forming the cable encircling member from a flattened state into a spiral coil interiorly of the cable tie is not obvious in view of Fennell and Farrell.

Fennell discloses the method steps of attaching part of the encircling member (5) to the cable (21) with a cable tie (15) and then spirally winding and securing the other portion of the encircling member about the cables (21, figure 4). Farrell discloses the

method steps of placing the cables within the already spirally wound encircling member (18) and then securing the cables by wrapping a tie (36) about the already wound encircling member.

The rejection of record modified Fennel with Farrell. In this modification there would be the method step of providing a first cable tie (15 in Fennell) and a second cable tie (36 in Farrell). The added method limitations of providing a single cable tie and assembling a single cable tie along with forming the cable encircling member from a flattened state into a spiral coil are not rendered obvious by the rejection based on Fennell in view of Farrell. The Fennell in view of Farrell method would be providing two cable ties and not a single cable tie as now required by claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack W. Lavinder whose telephone number is 571-272-7119. The examiner can normally be reached on Mon-Friday, 9-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Swann can be reached on 571-272-7075. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
